

To whom it may concern:

As a mother of three of the kids living here at Kless; I have heard many good things about this Community. The growth in my own children as well as others I've seen here over the years; is evident to see.

I appreciate the opportunity to be a loving part of this family here at Kless, as; I've visited my children here over the years.

It's perfectly okay with me, that the documentary be used to further bless children.

Sincerely,

Betty Jones
